Re: Patent Application No 10/753,115
Filing Date 01/06/2004
Applicant/Inventor: Abbas I Attarwala
Title of Invention: Electronic Package and Method

I filed the above referenced patent application by express mail on 01/06/2004. The inventor was not in this country on the date that I filed the application and had not been in the country for several weeks prior to my filing the application. I was not able to include the declaration with the application. On 04/17/2004, I received a Filing Receipt with Confirmation No 5221 acknowledging receipt of the patent application, along with a Notice to File Missing Parts of Nonprovisional Application. The inventor/applicant reviewed the application and signed the Declaration for Utility Patent Application on 06/07/2004. I noticed that I had not included in the patent application a cross reference to the inventor/applicant's prior Provisional Patent Application. I filed the Declaration for Utility Patent Application signed by the inventor on 06/08/2004. With the Declaration, I also filed a copy of the Filing Receipt marked to show Domestic Priority data as claimed by applicant. Both were sent to Mail Stop Missing Parts as instructed in the Filing Receipt. To ensure that I properly claim priority for the inventor/applicant's Provisional Patent Application, I am submitting this Communication.

I wish to claim on behalf of the applicant/inventor domestic priority for the present regular patent application No 10/753,115 based upon the applicant / inventor's prior Provisional Patent Application, which discloses the invention claimed in on more claims of the present application. Specifically I wish to claim priority based upon:

Provisional Patent Application No. 60/438,469
Filed 01/07/2003
Titled: Thermally Enhanced Electronic Package and Method for Making Same

If I need to take further action to claim such priority, please advise. Thank you for your courtesy and help in this matter.

Respectfully,

N. Eric Jorgensen
